to Plant this Fall

1946

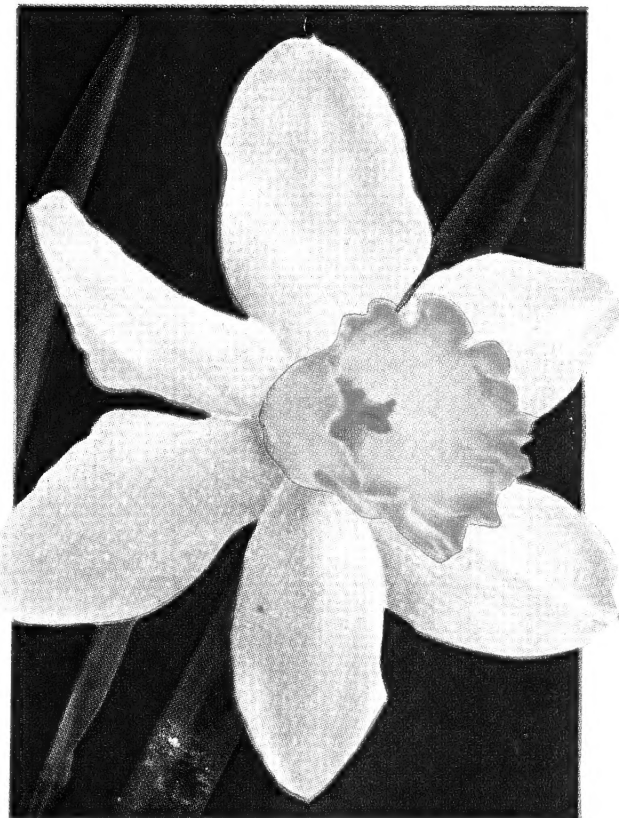

ROSE, PEACE. Pat. 591.

This is one of the most talked-of Roses ever introduced. In color it is softest yellow edged and suffused with pink; in shape the enormous open flower is loose and full. Stems and foliage are unusually good. A Peace Rose in your garden will be the center of interest all season. \$2.50 each, 3 for \$6.25.

**TULIP,
SCOTCH LASSIE.**

A Darwin Tulip bearing extra-large flowers of lilac-lavender with a darker shade inside and a dark blue base. \$1.65 per doz., \$12.00 per 100.

NARCISSUS, MRS. R. O. BACKHOUSE.

A Large Trumpet variety that is becoming very popular because it introduces pink tones into the Narcissus family. The perianth is white and the nicely frilled trumpet pink. Very lovely. Be sure to include some in your order. 3 for \$1.95, \$7.25 per doz.

A Border of Tulips is a Lovely Sight!

HOW TO PLANT TULIPS

Tulip bulbs are planted in the fall and early winter. The general rule is to plant them 4 to 6 inches deep, about 5 to 8 inches apart. However, they can be planted as deep as 10 to 12 inches if anyone cares to go to that much trouble. The deeper you plant them the better they will do, particularly when you intend to leave the bulbs in the ground for several years without digging them up. An average good garden soil with some good commercial fertilizer worked in it before planting, will produce excellent blooms. It is not necessary to dig up the bulbs every year. They may be left in the ground as long as they bloom well. However, many gardeners do follow the practice of digging after they have bloomed and the foliage starts getting yellow, storing them during the summer and replanting them in the fall.

TULIP-TIME AT CARROLL GARDENS

The above picture is a partial view of our plant and display gardens, showing some of the over 150 varieties of Tulips which were sent to us for show and experimental purposes by one of the best growers in Holland. To those who did not see this display, all we can do is quote the thousands who have seen it: "We have never seen such beautiful Tulips with such huge blooms, brilliant colors, and so many odd varieties." It is these tested varieties that are offered in this catalogue.

OUR GUARANTEE

All bulbs are Holland grown and are of top size and quality. You have the privilege of returning any unsatisfactory bulbs upon receipt. We also guarantee any plant we sell to be true to name and to reach you in fresh, healthy condition. On items that prove not to be as represented, we will replace or refund the purchase price.

TERMS

Cash or satisfactory reference must accompany all orders from parties unknown to us.

TRANSPORTATION

East of the Mississippi, we prepay transportation charges on orders amounting to \$3.00 or more; west of the Mississippi, please add 10 per cent to the amount of the order. On orders less than \$3.00, add 35 cts. for postage and packing.

IT IS EASY TO ORDER BY MAIL

With this Catalogue you have received an order blank and an addressed envelope for your convenience in making out your order. Always print your name and address clearly, and list the name and price of all items wanted. We ship to every state and have received many favorable comments on our method of packing and the fine shape in which the plants arrive.

Indoor- BLOOMING BULBS

AMARYLLIS

One of the most expensive, but also the most beautiful, of indoor plants. Bulbs throw vigorous stems with several giant blooms of lily-like form. The colors in the mixture range from the richest self-colors to pink, red and scarlet, markings on pure white grounds. Use pot only an inch larger than the bulb, just covering the round part of bulb and allowing the neck to stick out. Dry off after foliage turns yellow and repot the next fall.

Giant Hybrids, Mixed. 75 cts. each, 3 for \$2.00, \$7.50 per doz.

AMARYLLIS

PAPER-WHITE NARCISSUS

PAPER-WHITE NARCISSUS (POLYANTHUS)

The popular flower for growing in the house during the winter and early spring. Flowers are deliciously sweet-scented and bloom very freely. To have a continuous display, make successive plantings two or three weeks apart. Place bulbs in shallow jardinières or saucers with clean white pebbles arranged around them to hold them in position. Keep in a cool dark place from 10 to 12 days at a temperature of from 40 to 60 degrees. Then move to a warmer temperature of from 60 to 70 degrees. Keep watered sufficiently to keep the roots submerged.

Paper-White. Pure white. \$1.50 per doz., \$10.00 per 100.

Grand Soleil d'Or. Yellow bloom with orange-red cups. \$1.65 per doz., \$12.00 per 100.

GIANT FREESIAS

One of the most fragrant of our winter-flowering plants. Bulbs are rather small—a 6-inch pan will hold about a dozen bulbs. Pot up in good soil and set pots outdoors until cold weather, keeping them regularly watered. Bring inside just before frost and place near the window in a cool room.

Golden Daffodil. Rich daffodil-yellow. \$1.00 per doz., \$7.00 per 100.

Marie Louise Fischer. Large; dark violet-blue. \$1.00 per doz., \$7.00 per 100.

Mrs. Marc Peters. Rich rosy salmon, yellow throat. \$1.00 per doz., \$7.00 per 100.

Purity Superflora. Excellent pure white. \$1.00 per doz., \$7.00 per 100.

NARCISSUS

Narcissus are among the earliest spring-flowering bulbs and as such are most welcome. Their gay yellow and white and cream and orange blooms seem to be the very essence of the new season. It is well to plant them where they will have shrubs or evergreens as a background. Smaller kinds are very effective in the rock-garden, and for a superb spring picture there is nothing to surpass a large planting of naturalized Narcissus.

These bulbs are very hardy and may be left in the ground undisturbed for several seasons. They need a well-drained location. Plant the bulbs 4 or 5 inches deep, as early as possible in the fall. Smaller and fewer flowers after a few years indicate that the bulbs need to be dug up and replanted.

Peonies

Peonies are long-lived plants that do not require transplanting unless they show signs of deterioration. For that reason it is worth while to be particular about the place where they are to be planted. Choose a sunny location that gets good drainage. Dig deep, and use some well-rotted cow manure or a commercial fertilizer to enrich the soil. Bonemeal is also recommended.

The best months for setting out Peonies are September and October. Be careful not to place them too deep, for deep planting may keep them from blooming. The eyes should be only 2 inches below the soil surface. A Bordeaux spray will control diseases that occasionally attack Peonies.

Daylilies HEMEROCALLIS

Unless otherwise noted, 45 cts. each, 3 for \$1.10, \$4.00 per doz. Six plants at the dozen rate.

‡Useful for cutting. *Alpine or rock-plants

The hybridizers have wrought wonders with the old-fashioned Daylily. The improvements include a wider color range, an extended period of bloom, larger flowers, and sturdier plants. What is more, Hemerocallis are amazing in their adaptability; they are extremely hardy and will thrive under the most ordinary conditions, blooming in full sun or partial shade. Their vigor is especially evident in dry seasons and insect pests have little effect on them.

‡**Dr. Regel.** Rich orange-yellow. May.

‡**Flava.** Sweet-scented; clear yellow. June.

‡**Florham.** Golden yellow.

‡**Kwanzo.** A distinct double-flowering form of rich golden bronze. July, August.

*‡**Minor.** 18 in. A miniature form with pale yellow flowers. May, June.

‡Hyperion

This variety is one of the most popular and beautiful of all Daylilies, and we heartily recommend it for every garden. The large flowers are pale canary-yellow in color, and appear in July and August—just at the time when the summer garden needs rejuvenation. Once you have a nice planting of Hyperion you will wonder how you ever got along without it. A prolific bloomer, it makes a spectacular showing. Plant at least three in a group, and watch them grow more beautiful every year. 3½ ft.

Fine Roses FROM CARROLL GARDENS

Complete List of Roses Available for Planting This Fall

Because of the scarcity of Rose plants, we strongly urge you to place your orders as early as possible.

Due to the rainy season late last summer, which affected the Rose crop in the Eastern States, many varieties were killed completely and others suffered badly, which prevented getting sufficient bud wood for this year's crop. This has caused the present acute shortage.

Although our list is not as large this year as it has been in the past, the quality of the varieties offered is excellent and up to par. Please confine your order to varieties listed here. Should we be in a position to offer more varieties in our Spring Catalogue, you will be able to select additional kinds then.

WILD FLOWERS DESERVE A PLACE IN YOUR GARDEN

These eleven varieties provide a wonderful selection.

CYPRIPEDIUM (Lady Slipper). These natives can be made a part of a woodland garden or some shady corner of your garden where the soil is moist.

Acaule. Pink.

Pubescens. Yellow.

Spectabile. Charming pink species.

HEPATICA (*Anemone hepatica*). A ground-cover for moist shaded places around the home and rock-garden.

MERTENSIA virginica (Virginia Bluebells). 15 in. The loveliest of all blue spring-flowering plants. Plant them in broad masses with daffodils.

SANGUINARIA canadensis (Bloodroot). Deciduous. Large, pure white flowers in early spring. Large, leathery leaves appear later. Plant in clumps in the shady rock-garden.

SHORTIA galacifolia (Oconee-Bells). Rare evergreen ground-cover with leaves bright green. Flowers dainty creamy white, bell-shaped. March and April. Requires a moist, shady location.

TRILLIUM erectum. Purple.

Grandiflorum. The welcome white blooms of this early spring native plant are indispensable for color in the shady garden.

Sessile luteum. Yellow. This plant requires no care when given its two requirements—shade and fairly loose woods soil. The leaves are large and broadly ovate, being dark mottled green. Flowers are lemon-yellow and have a long blooming season in April and May.

Stylosum. A desirable rare mountain species. Large nodding, rose-pink flowers in early spring. Plant in semi-shade in woodland, border or rock-garden.

The above varieties are 50 cts. each, 3 for \$1.20, \$4.25 per doz.

Special Collection:

1 each of any 10 varieties . . .	\$4.00
2 each of any 10 varieties . . .	7.00
3 each of any 10 varieties . . .	10.00

HARDY OUTDOOR FERNS

Six of the finest varieties. Ideal plants for shady spots in your garden.

Maidenhair Fern. One of the most distinct and beautiful Ferns. Prefers a moist, shady location.

Lady Fern. Exceedingly showy and vigorous. Shade.

Toothed Woodfern. Almost evergreen. Fine effects when massed. Shade.

Cinnamon Fern. Strong, vigorous growing, suited to varied locations. Shade or semi-shade.

Christmas Fern. Evergreen. Extremely ornamental for massing in shade or partial shade.

Ostrich Fern. Bold growing, usually along streams. Very ornamental in a moist, shady location.

The above Ferns are 50 cts. each, 3 of one kind \$1.20, \$4.25 per doz.

Special Offer:

1 of each variety	\$2.50
3 of each variety	6.00

PERENNIALS—Old-Fashioned Flowers

We offer here a limited list of perennial plants which we strongly recommend for fall planting. For our complete and general list of

perennials, please refer to our Spring 1946 Catalogue. If you have mislaid your copy, we shall be glad to send you another.

Unless otherwise noted, all plants are \$1.10 for 3 of one kind, \$2.00 for 6 of one kind, \$4.00 per doz. of one kind. Single plants, 45 cts. each.

ACONITUM (Monkshood)

***Tiny Rubies.** The miniature plants produce carnation-like flowers on stems 4 to 5 inches high. In full sun the color is pink; with partial shade it approaches rose. It is a "must" for your rock-garden.

White Reserve. 16 in. Another top-notch white Carnation. June, July.

DIANTHUS BARBATUS (Sweet William)

†**Newport Pink.** Lovely salmon-pink.

†**Scarlet Beauty.** A beautiful shade of scarlet.

†**White.**

†**Mixed Hybrids.** Many shades.

FUNKIA (Hosta)

Indispensable plants for gardens, the Funkias grow well in sun or shade. Their blooms are attractive and their foliage has a rich and enduring quality which is especially decorative for ground-cover use.

Cœrulea lanceolata. One of those plants that require a minimum of care. The plants with their lush foliage are always nice; flowers are lovely during summer.

Lancifolia. 24 in. Glossy narrow foliage; lilac-blue flowers. August.

Subcordata grandiflora alba. The old-fashioned August Lily; one of the most permanent of perennials. Makes a delightful shady border. 3 for \$1.65, \$6.00 per doz.

many years*

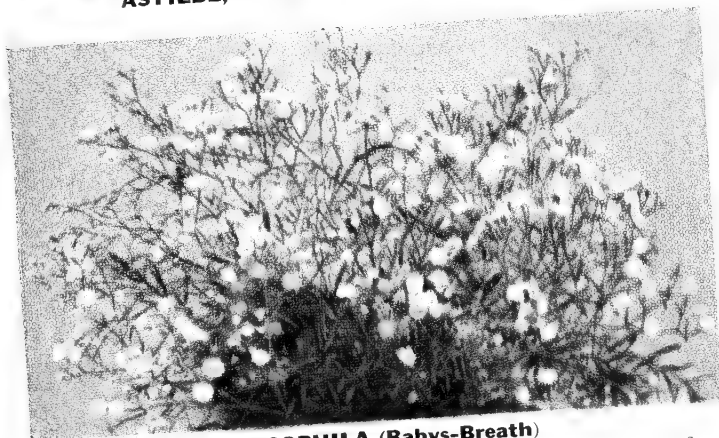

ASTILBE, Fanal

ASTILBE, Fanal. Spire-shaped sprays of fiery crimson tower 15 inches above the abundant dark bronzy green foliage. 75 cts. each, 3 for \$2.00, \$7.50 per doz.

HELLEBORUS niger (Christmas Rose). 1 ft. Single white blooms flushed with pink, on sturdy stems. A partly shaded location is best, and the soil should be enriched with manure, sand, and good loam. Blooms from December to March. \$1.10 each, 3 for \$3.00, \$11.00 per doz.

THALICTRUM, Lavender Mist (Meadow-Rue). 4 ft. The foliage is like that of a maidenhair fern, delicate and beautiful. The large, loose flower panicles of lavender-purple will lend an unusual note in sun or partial shade. 60 cts. each, 3 for \$1.60, \$6.00 per doz.

VERONICA, Blue Spire. A recent introduction known for its vigor and its long spikes of blue. July, August. 3 for \$1.10, \$4.00 per doz.

GYPSOPHILA (Babys-Breath)

Rosy Veil. A dwarf pink form treasured for the rock-garden or the foreground of the perennial border. 3 for \$1.20, \$4.40 per doz.

HELLEBORUS niger (Christmas Rose)

AQUILEGIA (Columbine)

Should be in every garden. They adapt themselves easily and often self-sow, to the delight of most gardeners. Few plants are more graceful in form and the blooms are delightful for cutting. 3 for \$1.10, \$4.00 per doz.

PERENNIALS, continued

PYRETHRUM (Painted Daisy)

‡**Single, Mixed.** A delightful strain for broad masses. 3 for \$1.10, \$4.00 per doz.

LYTHRUM

‡**Morden's Pink.** 2 to 2½ ft. Masses of rose-pink flowers on narrow spikes. Profuse and continuous bloomer June to September. Excellent for cutting. A hardy variety growing in full sun or partial shade. 65 cts. each, 3 for \$1.65.

TRADESCANTIA (Spiderwort)

The common old-fashioned forms were known to our grandmothers, who had many names for them. The hybridizers have been at work improving them not only in color and size of bloom, but they have considerably lengthened the period of bloom.

***Brevicaule.** A dwarf species with rose-pink flowers. May to July.

PHLOX subulata

3 for \$1.10, \$4.00 per doz. See page 36 for list of varieties.

IBERIS sempervirens

3 for \$1.10, \$4.00 per doz.

NEW TRADESCANTIAS. Ideal Plants for Shady Locations

The descriptions are those of the Department. Height 15 to 20 inches.

Blue Stone. Low-growing. Large, rich blue flowers.

Iris Pritchard. White flowers, heavily stained with azure-blue; blue center. Late bloomer.

James Crawford Weguelin. 18 in. Large flowers of a uniform light azure-blue. Very pleasing.

James Stratton. A variety with large flowers, 2½ inches from tip to tip; color deep delphinium-mauve, slightly shaded with rose.

Leonora. The very fine flowers are a deep rich glowing violet.

Pauline. Flowers are rosy mauve. A vigorous variety.

Purple Dome. A vigorous plant with large clusters of rich purple flowers.

Any of above Tradescantias, 3 of one kind \$1.10, \$4.00 per doz., 45 cts. each

Selected Plants for Your Rock-Garden or Low Border

ANEMONE pulsatilla (Pasqueflower). 10 to 12 in. The violet-blue flowers are followed by silky seed-pods. A picturesque and curious plant.

ARMERIA cephalotes rubra. 1 ft. Deep pink; very showy. June.

CAMPANULA carpatica, Blue. 6 in. Unusually compact and free-flowering.

DIANTHUS, Bobby. 8 in. One of our favorite plants, this compact-growing gem with glaucous foliage produces large flowers of deep pink with crimson centers.

GERANIUM lancastriense. New. 6 in. Light salmon-pink blooms borne frequently on 4 to 6-inch stems. Unusually hardy; a choice rock-garden plant.

HELIANTHEMUM, Ben Ledi. A new hybrid with crimson-lake flowers.

IBERIS sempervirens. The Hardy Candytuft has many uses in the garden.

HARDY PHLOX, Blue Eyes. An outstanding lavender-blue variety.

Brightness. New. Attractive bright pink.

Camla alba. A lovely new white form that blooms very freely again during fall months.

SEDUM sieboldi. In late fall when rock-gardens are dull, this unusual plant, curious in form, foliage, and flowers, puts on a show.

TUNICA saxifraga rosea flore-pleno. A rare new double. Rose-pink flowers from June to November.

VERONICA incana. 12 in. Silver-gray foliage. Deep blue flowers in June.

VIOLA, Purple Glory. Large violet-purple flowers all summer.

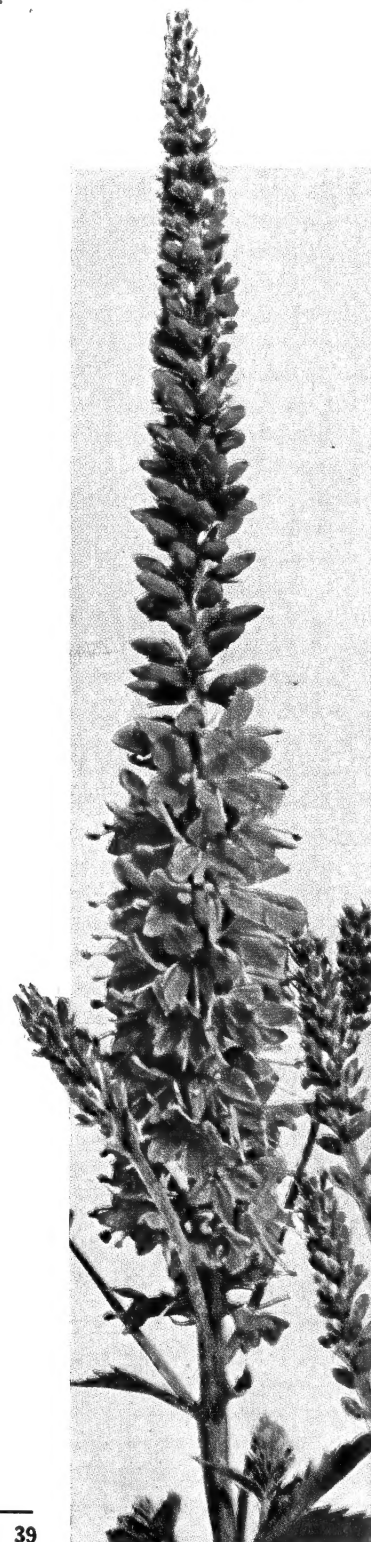

All above varieties, 45 cts. each, 3 of one kind \$1.10, \$4.00 per doz.
